Carolyn

Just to confirm, following our phone conversation, that in my capacity as Regional Spatial Strategy Manager at 4NW, I was in agreement that the use of updated evidence for the emerging Greater Manchester Joint Waste Plan would be a logical and acceptable way forward. It was therefore not necessary to continue to utilise the evidence base that had informed the preparation of the published Regional Spatial Strategy for the North West (September 2008). It is my recollection that we confirmed this in writing as part of our response to earlier consultations on the Joint Waste Plan.

Kind Regards

Duncan

Duncan McCorquodale

Former Regional Spatial Strategy Manager, 4NW (April 2006 to September 2010)
